WEDDINGS + LIFESTYLE

we're glad you're here!

Welcome!

You're engaged! We are so excited for you! Take your time browsing through our offerings and then let's schedule a time to chat. I want to hear more about you and your dream wedding!

Meet Deanna

I'm a native Texan, but love calling Los Angeles my home.

I'm a dog mom, and I'm not ashamed to say hello to every dog I pass on the street.

I'm quick to laugh at just about anything, and you'll most often find me with a smile on my face.

I care deeply about YOU and your wedding.

Being kind is my jam.

I love the relationships I build with my couples. I still shed a tear at almost every wedding as I send you down the aisle to get married.

Creating beautiful, memorable weddings is something I dreamed of as a young girl. How lucky am I to have fulfilled that dream?!

The Process

Our Wedding Planning process is designed to alleviate the day-to-day tasks and to-do lists from our couples, and allow them to enjoy being engaged while simultaneously planning an exciting wedding!

Our three-phase planning process means that you'll know where we are and what happens next each step of the way. We walk you through each element of planning with an eye toward making progress, while also recognizing that you lead busy lives outside of wedding planning.

We begin with visiting your venue together to begin brainstorming creative ideas for a unique experience for you and your guests. We'll have honest budget conversations, and develop a bottom line that is both comfortable for you and realistic in terms of what is needed for the kind of event you envision for yourselves. We'll then begin sourcing creative professionals for each aspect of your day,

Phase two focuses on the experiences and the tactile elements that, taken individually, may seem insignificant, but as a whole create an event rich in detail and dynamic in experience.

The final phase is loaded with logistics and pulling together all of the planning and details that result in a seamless, stress-free event for our couples and their guests. We are experts in logistics, and while we focus on every last detail, your role turns to more social activities (showers, bachelor/bachelorette parties) final fittings, and welcoming your guests to your wedding weekend.
